

GENERAL NOTES - WATER

Main shut-off wrench is hanging on fence outside of and just south of Maintenance Building (behind Apt. 10811).
 All building shut-offs are located in square concrete boxes about 1 ft. by 2 ft.
 Main valves serving east side of Glen Acres Drive are close to the curb. Those serving the west side are about 3 to 4 feet from curb.
 All main water valve locations have BLUE paint on curb.
 All mains to Apartment and Townhouse buildings are shown with dotted lines which indicate general location only.

GENERAL NOTES - GAS

All appliances have individual shut-offs. All main shut-offs require crescent wrenches or large pliers.
