

SYMBOL CODE

- ▼ Individual WATER shut-off valve.
- Individual GAS shut-off cock.
- Ⓜ Main WATER shut-off valve.

SPECIAL NOTES - WATER

DIVISION NO. 7

Individual shut-off for Apartment 11015 is located in storage locker in basement (below No. 11015).

GENERAL NOTES - WATER

Main shut-off wrench is hanging on fence outside of and just south of Maintenance Building (behind Apt. 10811).

All building shut-offs (except as noted above) are located in square concrete boxes about 1 ft. by 2 ft.

Main valves serving east side of Glen Acres Drive are close to the curb. Those serving the west side are about 3 to 4 feet from curb.

All main water valves have BLUE paint on curb.

All mains to Apartment and Townhouse buildings are shown with dotted lines which indicate general location only.

*** Main Water Shut-Off valves turn off each stack of units, not just an individual unit.**

GENERAL NOTES - GAS

All appliances have individual shut-offs.

All main shut-offs require crescent wrenches or large pliers.
